September/October School Holiday Program

	Monday 30	Tuesday 1	Wednesday 2	Thursday 3	Friday 4
9am to 12pm	 <p>We know that DNA is present in every cell of plants and animals, providing the information for the recipe of life, but how many of us know how to extract it? We will explore the world of DNA and learn how to extract it from a strawberry.</p>	 <p>Students will have the opportunity to learn the basics of hand stitching, and how to size and cut a pattern. Simple sketches of fashion design will widen their understanding of the many steps that go into making even the most basic of clothing.</p>	 <p>In the morning session we will cover Hygiene and Safety rules in the kitchen as well as the basics of food preparation. Chefs will use their own child-safe knife (theirs to keep) to prepare homemade hummus¹ with vegetable sticks and Arnott's Bliss balls². Everything that is made can be taken home to share with the family.</p>	 <p>Students will step back in time to 79AD and delve into the destruction of Pompeii. Using the preserved city as a launch pad, scholars will learn about day-to-day life in a Roman world, the explosive eruption of Vesuvius, and the messy story of how an entire city was lost to history and finally rediscovered.</p>	<p>One of the biggest changes to the English syllabus has been the new Module C: The Craft of Writing for both Standard and Advanced English. Teachers and students have had to navigate their way through this new territory and with the HSC fast approaching, you want to be fully prepared for this section of the exam. This holiday workshop will support you in understanding the requirements of this new module, including how to write effectively in creative, persuasive and discursive form while understanding how to use your prescribed texts to stimulate your writing ideas.</p>
12pm to 1pm	Lunch break				
1pm to 4pm	<p>Table Soccer:</p> <p>During this afternoon session, students will learn how to play table soccer. Students will learn the rules and have hands on experience for this latest craze coming to Australia!</p>	<p>Using the skills acquired in the morning students will be able to sew their own A-line dress or simple piece of clothing!</p>	<p>In the afternoon session we will cover Hygiene and Safety rules in the kitchen as well as the basics of food preparation. Chefs will use their own child-safe knife (theirs to keep) to prepare homemade rice-paper rolls³, and coconut ice⁴.
